Speaker biography

Dr Noppadon (Nhum) Adjimatera is currently the ASEAN/Japan & Korea Regulatory & Medical Affairs Director at Reckitt Benckiser (RB), based in Thailand from January 2018, covering all RB health products, including paediatric nutrition business, for ASEAN and Japan/Korea.

He held the position of Global Regulatory Affairs Director for Health Category at RB global technical centre (UK) during 2011-2013, and Regulatory Director for ASEAN/India during 2014-2017. He previously held the position as Head of Asia Regulatory & Medical Affairs for RB Asia for 3 years.

Nhum is a registered Thai pharmacist and obtained his PhD in pharmacy at University of Bath, UK. He also has a Laws degree and MBA from Thailand.

Prior to RB, he held various positions in scientific and regulatory affairs, human/environment safety, and government relations for various healthcare categories at P&G and PepsiCo in Asia-Pacific region for 10 years. In his current role, he heads the development of Asia regulatory strategy and operation for OTC medicines, medical devices, health supplement, infant formula & children nutrition and personal care as well as regulatory compliance within the region. He proactively works with various health authorities and trade associations to support the development of self-CARE regulatory framework within Asia Pacific.
